PROFESSIONAL EXPERIENCE

Independent Development | Etymus Ethnomarketing Research & Strategy / *2020 – Present*
Web Developer / Platform Administrator

- ✓ Designed and developed a corporate website and an ERP-style web application using CodeIgniter, PHP, MySQL, HTML5, CSS3, Bootstrap, JavaScript, and jQuery.
- ✓ Contributed to requirements gathering, analysis, design, planning, and coding; managed domain, hosting, and email services.
- ✓ Developed ERP modules for users and permissions, personnel, projects, invoicing, receivables/payables, expenses, payroll, banking, customers, recruitment, and reporting; blog and e-commerce integration are part of the broader project scope.
- ✓ Handled SEO-related tasks and website measurement through Google Analytics.

IT Solutions Global Incorporated, S. de R.L. / *April – October 2023*
Server Specialist Engineer

- ✓ Managed server inventories, backup tracking, log analysis, operational reports, user administration, and data-center support.
- ✓ Used VMware vCenter/ESXi and ManageEngine Applications Manager and Vulnerability Manager.
- ✓ Reported no critical outages caused by software failures during the period and timely operating-system updates.

Hernández Renta de Autos, S.A. de C.V. / *August 2014 – March 2019*
IT Systems Manager / Invoicing and Accounts Receivable Lead

- ✓ Established the IT department and introduced IT policies; developed a website and ERP platform. The original CV reports a 50% improvement in staff efficiency and a 45% increase in productivity.
- ✓ Analyzed and developed an ERP using CodeIgniter, PHP, MySQL, HTML5, CSS3, Bootstrap, JavaScript, and jQuery, covering operations, invoicing, receivables, personnel, vehicle maintenance, customers, suppliers, contracts, and service tickets.
- ✓ Implemented and administered Windows Server 2008 R2/Active Directory, LAN and VPN connectivity, switches, routers, access points, structured cabling, and UPS; deployed a 7-camera IP surveillance system.
- ✓ Provided preventive and corrective support for computers, printers, mobile devices, GPS units, and payment terminals; supported users on-site and remotely.

CECAVIT, S.C. / Instituto ILLESCAS, S.C. / *April 2012 – August 2014*
IT Instructor

- ✓ Taught graphic and web design, programming, operating systems, and office applications.

Altas Soluciones en Informática, S.C. / *October 2009 – September 2010*
Systems Technician

- ✓ Maintained and assembled computers, implemented administrative software, administered Dovico TimeSheet, and updated the company website.

Grupo Vissage, Asesores de Imagen, S.A. de C.V. / *May 2007 – October 2009*
IT Manager

- ✓ Established the IT area and developed a Visual Basic 6 / Microsoft Access desktop ERP for nine branches and a head office, including inventory, point of sale, appointments, and customer management.
- ✓ Implemented VPN and IP video surveillance; provided technical support and user training.
